

**Dr. Thomas W. Hart**

Dr. Thomas W. Hart, a retired Biology Professor from Washington & Jefferson College, has worked globally on projects such as tropical agriculture in Malawi, Africa, a research expedition in the Gobi Desert hunting fossil mammals and dinosaurs, and studying hot peppers in South America.

Locally, Tom assisted the late Dr. Ernest Abernathy in the planting of trees for the Abernathy Baumplatz in Washington County and he is currently the Tree Consultant for the WCCF's *Acorn to Oak Project*. He is presently a supervisor in South Franklin Township, Science advisor for the American Hemerocallis Society - Region Three (Daylilies) and has had a long interest in local history. Following Hurricane Katrina, Tom worked with the Red Cross in the New Orleans area.

His teaching experience ranges from areas such as botany, general biology, web design, coral reef biology, biological statistics and ecology.

Tom and his wife, Myrna, reside in Washington.
